

## **Restoration of historic puddingstone wall completed.**

Last year The Arboretum Park Conservancy, an independent volunteer group that supports the Arnold Arboretum, received a Small Changes Grant from the city of Boston to restore the historic puddingstone wall on the west side of seventeenth century South Street along the Bussey Brook Meadow section of the Arnold Arboretum. The restored portion runs for 700 feet from the new South Street Gate to the Asticou-Martinwood neighborhood. The money from the grant was matched by the Arboretum Park Conservancy and donations from the Arnold Arboretum of Harvard University and the Arnold Arboretum Committee, a volunteer neighborhood group.

Your Space Landscape and Construction, Inc, of Burlington, MA completed this work in March 2008.
